Setting up BaseOneCRM Account

Welcome! As Windsor Business Hub Network Member your business has access for two users to our own Customer Relationship Management System BaseOneCRM. A complete and powerful all-in-one sales platform designed to make your sales team more productive and your customer interactions more meaningful. By centralizing all contact data, leads history, and tasks into a single, intuitive interface, it eliminates manual administrative work and gives you full visibility into your pipeline. BaseOneCRM allows users to track and sort deals through customized sales stages, offering visibility into the revenue pipeline.

To start using the CRM system here are the steps to follow.

Choose the best account type for your business.

Individual Account

For independent salespeople and small businesses.

Freelancers, consultants and for building "personal" sales pipeline independent from other salespersons but sharing with printed/pdf reports. Recommended for individuals and small business with small number of independent sales agents

1

Corporate Account

For small businesses, sales departments and sales networks.

For sales departments or organizations where a main account would be creating additional sales accounts and/or additional manager(s) and view department pipelines without interfering with individual accounts. Support for more than one sales manager. Recommended for teams of two or more sales agents.

For Individual Account

2

If you choose individual accounts, each sales account will be independent, any additional account you add to your business will be independent. And each new salesperson account will need to be created by themselves. To create individual accounts use this link:
